## REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 5-8 are allowable over the prior art because the prior art does not disclose or suggest: detecting a leak in reciprocating machinery by identifying a flow component of a monitored flow of material out of the reciprocating machinery that has at least one different frequency than the fundamental frequency of the reciprocating machinery, in which the fundamental frequency comprises the rotational frequency of the reciprocating machinery multiplied by the number of pistons in the reciprocating machinery.

Claims 9-13 are allowable over the prior art because the prior art does not disclose or suggest: a computer arranged to receive a flow value from at least one measuring device wherein the computer comprises a program that detects leaks in reciprocating machinery by identifying a flow component of the flow value that has a frequency that differs from the fundamental frequency of the reciprocating machinery, in which the fundamental frequency is constituted by the rotational frequency of the reciprocating machinery multiplied by the number of pistons in the reciprocating machinery.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany
